

#LOBBYING

AND LEGISLATIVE ACTION

Lobbying

The Puerto Rico Chamber of Commerce (PRCC) understands that maintaining an active presence in the legislative process is essential to assuring a sustainable economic development for Puerto Rico and its private sector. Thus, the PRCC is one of the local private associations with more presence in the Puerto Rico Legislative Assembly and the United States Congress, given that it represents all business sectors in the island. Its leadership in the entrepreneurial community is upheld by the value to its members of the lobbying activities as a basic service for protecting and defending the interests of the private sectors, not only in Puerto Rico but in the U.S. Congress as well. It is also the private sector organization most consulted by legislative committees with regard to bills or projects submitted for their consideration.

The PRCC assumes its position regarding a legislative bill after evaluating its impact on the economy and commerce, while refraining from partisan or political considerations. This is always done considering the mission of our organization to encourage and support the development of our constituents, providing knowledge, representations of all sectors and protecting the values and principles of the free market. Our achievements demonstrate that the PRCC has been highly effective in identifying legislation that would be damaging to the entrepreneurial community prior to becoming law, by means of careful evaluation, submission of analyses to the legislative bodies. In addition, by means of the Working Committees the PRCC offers its members the opportunity to express their ideas on legislative measures that are needed to promote the socioeconomic welfare of our country.

We keep our members up to date regarding the progress of legislation pending consideration by the legislative bodies by means of our institutional publication, "Informe Legislativo", which can be accessed through our webpage
