

### **Mr. Israel Lorenzana**

President, I-Solutions, Corp.

**I**srael Lorenzana is the President and founder of I-Solutions Corp., a management consultancy providing clients with new technology solutions to help them engage their audience on the web. Prior to founding I-Solutions, Mr. Lorenzana spent more than a decade working for industry leaders such as Oracle on the front lines of their successful growth efforts in the Caribbean and Latin American countries including Venezuela, Colombia, and much of Central America.

Mr. Lorenzana's current work at I-Solutions entails consulting with organizations such as the Puerto Rico Certified Public Accountants Association, the Puerto Rico Manufacturers Association, and the Puerto Rico Chamber of Commerce, as well as businesses, in defining and implementing new web strategies to extend their reach in a global marketplace. He has delivered numerous lectures on transcending geographic boundaries with technology to organizations including the Puerto Rico Small Business Technology Development Center, a subsidiary of the United States Federal Government's Small Business Association.

Mr. Lorenzana has a B.S. in Computer Engineering from the University of Puerto Rico, Mayaguez, as well as a Masters in Management Sciences from the Florida Institute of Technology. Prior to working in IT he worked for the United States Department of Defense as a computer engineer. He has received numerous awards for his work in the IT industry.
