

Dr. Manuel Figueroa

President, Virtual Educational Resources Network (VERNET)
and Vicepresident, Board of INTECO

Dr. Manuel Figueroa is President of VERNET, Inc. the leading K-12 Educational Software Company in Latin America. VERNET's software is leading the transformation of the educational environment throughout Latin America. He holds a Ph.D. in Electrical Engineering from Florida Institute of Technology where he was a Ford Foundation Fellow. Dr. Figueroa spent 13 years at the prestigious AT&T Bell Laboratories where his contributions won national awards. Dr. Figueroa, a Wharton Business School Advanced Management Program graduate, held the position of Vice President, Wireless Access Solutions at Lucent Technologies prior to founding VERNET in 2000. He was responsible for Lucent's wireless access sales to all of Latin America. Prior to his appointment as vice president, he was CEO, Lucent Mexico Operations in Mexico. An active participant in the professional community, Dr. Figueroa is past president of Association of Puerto Rico Products and a member of the board of INTECO, EPSCoR, BADECO, and Triple S Management Corporation.
