

The Puerto Rico Chamber of Commerce
and it's Health Committee present the

PUERTO RICO
Health & Insurance
CONFERENCE 2021

**Value-based model in
Primary Care Services**

**Rafael L Roig, MSEE
President**

Quality Health Solutions, LLC

Traditional FFS in Primary care

- Volume based
- No data or infrastructure to measure other factors
- No financial responsibility
- Outcomes or results were not standardized nor measured

Primary care responsibilities in the new reality of Value Based Models

- Clinical Care
 - Results or Outcomes
- Care Management
- Patient engagement
 - Prevention and education
- Access for patients and family
- Cost management
- PMPM Payment
- Budget through correct coding
- Patient Satisfaction
- Integration of mental health services with physical health services

Value-Based Model's Must Haves

- On time information
- KPIs evolve with time and measurements
 - Reach maturity (eliminate irrelevant statistics)
 - Introduce new measures
- Team approach
 - IPA and Staff models
- Advance notice of the changes and metrics that will affect the IPAs, Staffs and Doctors.

THANK YOU!
