

Yussef Galib-Frangie, MD, FACP, has worked in the healthcare industry for over 10 years, gaining experience in managed care, academic medicine, hospital medicine, and physician leadership. As President of the Puerto Rico Medical Association, he is passionate about advancing physician foresight and collaboration with all the stakeholders involved in the

provision of medical care. In addition to his very active involvement within the healthcare system, he is also dedicated to the promotion of Puerto Rican culture as President of the “Círculo de Recreo” (one of Puerto Rico’s oldest and most respected social and cultural institutions) in his hometown of San Germán. Outside of these duties, Yussef enjoys playing bass in a local cover band, collecting (and devouring) books as the veritable bookworm he is, and travelling with his lovely wife María del Pilar.
