

Gino Villarini is the Founder and CEO of AeroNet Wireless Broadband LLC. A telecom service provider in Puerto Rico, USVI, and South FL. Aeronet, founded in 2001, is a technology-leading company in the fiber and wireless industry, utilizing the latest technology and infrastructure to provide exceptional services to its business and residential customers. Aeronet is a 2.5 GHz and 3.5 GHz CBRS spectrum owner, leveraging both assets into 5G and Fixed Wireless access networks to close the digital divide and provide broadband services in the markets served.

Since his youth, Gino Villarini has been an entrepreneur, founding his first company (at 16 YO) in 1990 in the auto security space, a cellular and Paging retail chain in 1994, and co-founding a dial-up ISP in 1996.

Besides Aeronet, Mr. Villarini is an active angel investor in tech-oriented startups, an early Bitcoin and Crypto adopter, and an entrepreneurship mentor.
