

Dr. Wendy Fernandez-Gordon is the Senior Vice President of Clinical Affairs for APS Health Care. She has over 25 years of outstanding performance in the mental health industry. Before her current position, she was the APS Clinic system's Director.

Before joining APS Health, she performed as the Treatment Director of the Drugs Control Office, where she led the implementation of the substance abuse treatment strategies. Dr. Fernández chaired the State Treatment Committee that coordinates the substance abuse treatment programs such as Drug Court and Counselor licensing process.

Dr. Fernandez has been involved in the

design and implementation of the first medication assisted program for the US' Correctional System.

Dr. Wendy Fernández earned her PhD degree with distinction at the Albizu University and is the proud mother of Carlos Emmanuel.
