

FORUM: TRANSITION TO PUERTO RICO'S NEW ENERGY PARADIGM

PARTICIPATE IN THIS IMPORTANT FORUM AND LEARN...

- ⚡ What is the plan to achieve a modern electricity grid based on clean, resilient and affordable renewable energy?
- ⚡ Hear the main public and private players in the electricity ecosystem discuss the opportunities and challenges posed by Puerto Rico's transition to 40% renewables in 2025 and 100% by 2050.
- ⚡ Raise your questions, concerns and aspirations about Puerto Rico's energy problems to the main players in the electricity ecosystem.

MODERATOR:

Javier Rúa-Jovet, Esq.
 Chief Public Policy Officer of the Puerto Rico Solar Energy and Storage Association

INVITED KEYNOTE SPEAKER:

Edison Avilés-Deliz, PE, Esq.
