Health & Insurance
CONFERENCE 2022

Abartys Health
Corporate Presentation
Florian Gaa, General Manager

Abartys Health At-a-Glance

A leading provider of centralized hub dedicated to data Interoperability and clinical insights

Corporate Profile

- Founded in 2016, **Abartys Health** is a health-tech company based in Puerto Rico with the mission to improve health care data interoperability between labs, patients and doctors.
- Abartys developed innovative healthcare data management solutions via a **centralized data hub** that allows for increased medical record portability and **universal patient identification**.
- Our intelligence platform **ClinicLynk** leverage Abartys laboratory datasets to deliver actionable insights into patient journeys to help life-sciences companies and payers screen patients at risk and identify early interventions.
