

# A Physician's Perspective

---

Yussef Galib-Frangie Fiol MD, FACP

President

Puerto Rico Medical Association

In order to transform the system of care to a person-centered one; we should face and resolve the following challenges:

---

- Provider Exhaustion: High volume of very complex cases
- Recruitment and retention of qualified personnel and physicians..
- Infrastructure Support: Medical Specialists and Subspecialists.

# Improvement Toolbox

---

- Reimbursement parity
- Adoption of technology
  - Effective coordination of care across the spectrum
- Curricular revision
- Healthcare literacy
  - Patients
  - Providers
